

What your child will learn

Our own unique pathway to creating brighter futures.

Alongside the Early Years Foundation Stage framework, The Old Station Nursery Group offers a bespoke set of learning programmes designed as curriculum enrichments. These are our golden threads of enrichment, intertwined within our core curriculum provision.

Our bespoke learning programmes aim to cement solid foundations for learning and focus on the key skills, knowledge and attitudes which we believe each child needs for an enriched, happy, healthy and successful life; and to make positive contributions in the world they are growing up in.

The expert delivery of rich, engaging, meaningful activities, purposeful play, and focused high-quality teachable moments, provides real opportunities for children's natural curiosity to be enhanced, for individual learning to be challenged and extended, and secures solid foundations for life-long learning.

Confident Speakers and Communicators

Developing confident communicators by engaging in quality conversations with children every day, in a language rich and communication friendly environment.

Mini Maths

Engaging children in meaningful mathematical learning. Developing knowledge, building skills and exploring concepts, through purposeful play and plenty of practice.

My Happy Self

Championing children's holistic health and laying the foundations for a happy, healthy and successful life.

Raving Readers

Enticing and exciting children to develop a lifelong love of books and reading.

Terrific Technology

Supporting the development of early digital literacy and nurturing our next generation of investigators, inventors and innovators.

Wonderful World

Helping the future generation of global citizens to understand the world they live in and to believe that they can make a difference.
